TESTIMONIALS

“Finding the time to come up not only with content, but engaging content, is time consuming and difficult. Working with Introtweet has saved us time, but most importantly they have kept our brand in front of potential clients. We would not hesitate in recommending Introtweet, you’ve been a great help!”

Fine & Country, South Devon

“Our first few months of working with Introtweet have been a really fantastic experience. Both Laura and Pete have created our Social Media presence from a standing start and have evolved this seamlessly into a very dynamic experience. The posts that they create on our behalf are both insightful and very creative. Introtweet are extremely organised and this really helps when it comes to providing timely and meaningful content. The method of sharing content is extremely easy and has encouraged all of the team to engage and participate. So an extremely satisfying first few months.

I did have some real concerns initially that we would not be able to generate any interesting content, but with some guidance and encouragement from Laura and Pete this has certainly proved not to be the case. We have shared some interesting content and experienced some really pleasing levels of engagement. In conclusion, one very happy customer and I would encourage you to consider using Introtweet to manage your Social Media services – I promise that you won’t regret it!”

Steve Burry – Managing Director – Dennis Maps LTD

“Introtweet have been fantastic in helping me get my work noticed by social media. In two months my statistics have gone off the scale. The traffic visiting my Twitter and Facebook has had an overwhelming response. They are very organised; on the ball and pushing me for new work to go on line. It also has allowed me to concentrate on my own work and not tied to a desk. Been away for nearly three weeks in Ireland working; knowing Introtweet are posting for me takes the pressure off greatly. It felt like everything was taken care of while I was away and never a blip with a lot of people following my daily image/blog. Best of all I am getting results in Wedding enquiries on a weekly basis. The skill set they have would help any business. It’s changed my outlook and allowed me to concentrate on my work!”
